

Rockfon® Mono® Acoustic

SPACES AS STUNNING AS THEY SOUND.

Rockfon[®] Mono[®] Acoustic

Capture a signature look and brilliant acoustics in a single masterstroke. Rockfon Mono Acoustic opens unlimited possibilities to design awe-inspiring architectural ceilings and walls. Flat, sloped and curved in any way, you have complete freedom to innovate. Made from recyclable stone wool, Rockfon Mono Acoustic reflects today's design trends with its bold, daring lines and smooth surfaces.

Create a masterpiece

Design spaces with beautiful finishes and high sound absorption that make them a pleasure to be in. Rockfon Mono Acoustic has class A sound absorption and meets the highest possible (A1) fire resistance standards. It also reduces the need for artificial light with a light reflection coefficient of 87% and an even distribution of natural daylight.

Mono Acoustic lets you shape the surfaces of your walls and ceilings to create brilliant architectural designs without compromising on superb acoustics. Feel free to curve the surface of your acoustic panels to as little as a 1500mm radius to fit your building design while achieving a seamless finish. With organic shapes, curves or bold geometrics you can capture the spirit of your space.

Acoustics

Class A sound absorption.
Independently tested in certified laboratories using an α_w measurement in accordance with ISO11654.

Design

- Complete design freedom
- A unique seamless and flexible acoustic solution
- Curve the surface of your acoustic panel to as little as a 1500mm radius
- Integrate on ceilings and walls
- It can be installed sloping, flat or curved, in a suspension grid or it can be mounted directly.

Cradle to Cradle Certified® Bronze
